Subject: RE: Projecting PCB Approvals in Fiscal Year 2019

Riverside – March 2019 seems about right. Currently, additional PCB characterization is taking place this week to better delineate soils impacted by PCBs at or above 50 ppm (for disposal purposes). Once fully characterized, the RP will implement the RAP (essentially excavation followed by confirmation sampling). The RAP is in draft form at the moment.

Chevron Coyote Hills – I'm guessing March 2019 for an approval date...public interest is stalling the process, but essentially they estimated by around this time (November/December), they would have a written plan. I haven't received anything from them yet.

UP/Leo Street – stalled. Not sure when we'll get a workplan. Union Pacific wants neighboring property owners to conduct PCB removal effort.

POLA San Pedro Boat Works – approval likely to be issued in March 2019. POLA recently submitted another RAW to DTSC bc the old DTSC PM retired and a new DTSC PM just reviewed and sent comments to POLA. USEPA approval will depend on DTSC's approval, and will have to be coordinated.

POLA Wilmington – they have already been approved for PCB removal, and are currently in implementation.

Former Tanklage (825/835 Industrial Rd) – currently doing workplan implementation.

Subject: Projecting PCB Approvals in Fiscal Year 2019

PCB Project Managers, I need to submit a bowling chart identifying PCB Cleanup Approval targets for each month for federal fiscal year 2019. Below is my best projection for when sites may be ready for approval.

Please review the list and either adjust the projected date for approval or insert a projected month. If an approval is unlikely in 2019 simply project "beyond 2019". Also, if you have other sites that may be ready for an approval in 2019, please list them. Thanks

1. San Jose Water Tank – November 2018 (Sara)
2. Ross Valley – December 2018 (Carmen)
3. Johnston Atoll – January 2019 (Amanda)
4. GE Oakland – February 2019 (Ron)
5. Riverside Scrap Yard – March 2019 (Cynthia)
6. Fontana Scrap Yard – April 2019 (Mitch)

7. Chevron Coyote Hills – (Cynthia)
8. Talley Brothers – (Sara)
9. Clow Valve – (Sara)
10. HECO Molokai (Frances)
11. HECO Waiau (Madison)
12. San Carlos Irrigation District Maintenance Yard (Sara)
13. LADWP (any of these sites?) (Amanda)
14. Other sites we project approving in 2019?
- 15.
